TASTE OF INDULGENCE

Wobniam

TASTE OF INDULGENCE

Wobniam

Chocolate is probably the world's most loved sweet. It's consumed in many forms, and candies is the most favourite of all. We, At rainbow chocolates, have been bringing the joy of chocolate mixed, filled And wrapped in our confectionary products. We started off as a manufacturer, Supplier and wholesaler of confectionaries in 1986 in thane.

We have a large range of colourful, flavourful confections available in the market, which serve as a treat to our tongue as well as our eyes. May it be the candies, bite-size chocolates, lollies, or other sweets; not only children but grown-ups also savour them. Adults being health conscious, consume them with confessions. the products are manufactured at a state of the art facility. The material sourced for the processing comes through stringent quality norms. Mechanical packaging and wrap-ping ensures utmost hygiene. Our R&D department keeps on experimenting with the tastes, colours and flavours so that we could deliver the innovative variety to our customers. The Rainbow range of confectionaries is loved by all age groups. Especial-ly, children are so fond of them.

Rainbow was started by Shri Rameshlal Hukmani with a vision to make it a household name. Today, after so many years Rainbow Chocolates is one of the most preferred brands in confectionaries. We are gearing up to spread our wings and take this brand on a national level.
